CREATING A CULTURE OF PARTNERSHIP

Building a culture of partnership may seem to be a tedious and tiresome thing to do. But at KCPF, we not only provide professional & technical support in influencing the development of a legal & social environment that is supportive of biblical values but get to put it into practice too. This is because partnership removes roadblocks, uncovers opportunity, and sets your team up for success allowing your organization to get the most out of strategic collaboration.

It also brings together different strengths and perspectives that will simulate creativity, innovation, and diversity enhancing organizational knowledge, capacities and capabilities. Therefore, partnership if done properly, can create a very successful place that allows you to connect with your audience in ways that otherwise wouldn't be possible.

It is for these reasons that we encourage a mindset of partnership and collaborations at all levels of engagements.

A POWER-PACKED WEEK

Next week, we have a fantastic few days of events, regional conference, family symposium and March for Family. We will climax the week by having a March for Family around Nairobi CBD. And that's not all! We have encouraging and equipping events ranging from counselling, governance, training and mentorship.

We provide professional & technical support in influencing the development of a legal & social environment that is supportive of biblical values in society through research, advocacy, mentorship & witnessing.

Our key partners are the National Council of Churches of Kenya, Kenya Conference of Catholic Bishops, & Evangelical Alliance.

Our world has many problems which has affected all spheres and sectors of life. But if the body of Christ will collectively step into its rightful place, we can see the change we all earnestly desire.

Please join us in ensuring that these priorities & the corresponding activities are executed effectively & consistently in our society, & everywhere we occupy.
